Re: Letter of Reference for K. Hector Girardin and TechCAD Services LLC

Dear Sir/Madam

K. Hector Girardin became employed with my firm in September 2010 and since that time has been a reliable and devoted asset. Beginning in 2013, our small firm transitioned to all employees being self-employed to better manage our assets and tax liabilities. For the last five (5) years, Mr. Girardin has provided our firm with excellent support as an Engineering Tech and CAD Services through his employment and then through his firm, TechCAD Services LLC. His experience and the capabilities of TechCAD Services has proven invaluable to my firm by and through their use, knowledge, and experience with building codes, building construction, and structural member sizing, as well as mechanical sizing and layout.

However, their knowledge doesn't stop there. If you'd like more information or to contact me about the knowledge and reliability, I've provided my contact information below. We confidently recommend TechCAD Services LLC as a solid and reliable supplier, and knowledgeable in building systems and drawing development.

Respectfully submitted,

Dustin W. Ochs, P.E.
